

Discover the many facets of
DuPont™ Corian®
and see your designs take shape.

Corian.

What is Corian® ?

DuPont™ Corian® is the seamless solution to a multitude of demands in surface design. Enabling imagination to meet the needs of functionality, Corian® adapts beautifully to any role, from subtle elegance to the most exotic of forms.

Composition of Corian® :

1/3 acrylic resin

Poly - Methyl - Meth - Acrylate or P.M.M.A

2/3 mineral

Aluminium Tri-hydrate or A.T.H

Environmentally friendly pigments

Corian.

Inconspicuous Joints

Virtually unlimited design possibilities

Colorful

100+ unique, on-trend colors and patterns

Low-VOC emissions

GREENGUARD certified to be free of heavy metals

Solid

Colors and patterns run through the entire thickness

Warm To The Touch & Feel

Fire-resistant

Certified Class 1 & class A

Non-Porous

Does not support the growth of bacteria or fungi

Non-toxic & Inert

Does not emit toxic halogenated gases when burned

Durable

Long life cycle and be easily renewed to original appearance

Stain-resistant & anti-drug

Resistant of chemical drugs, cosmetics, flavorings

Impact-resistant

Withstand 324g ball drop from 1.8m height

The elegance and versatility of Corian® make it the right choice for...

Healthcare

Hospitality

Exterior Cladding

Food service

Homes

Retail

Public Spaces

Intriguing designs

and many more....

Corian.

For Hospitals and labs, senior living facilities, plus dental, pediatric office interiors and more: there are no crevices or edges for germs to hide, as Corian® promote a fully hygienic surface when properly cleaned.

For Hospitality spaces such as resorts, hotels, spas and similar environs: unlike other surface solutions, a smooth, consistent look can be created via seamless integration from design to functionality.

For Exterior Cladding: The durable, weatherproof qualities of Corian® means that it can be used to clad a building's exterior along with multiple uses in interior. Combining high performance, with elegant aesthetics and extraordinary versatility of application, Corian reveals new vistas of possibility for the designer.

Backlit façade of Mosaic Banquet Hall, New Delhi

For Food service locales such as cafés, restaurants, cafeterias and more: our nonporous sinks are stain-resistant, plus easy to clean and maintain; Corian® counters can flow seamlessly into bowls, eliminating trapped dirt and bacteria.

For Kitchens, bathrooms and various interiors of private residences: bold, monolithic displays can be created due to the visually seamless integration capabilities of Corian®

Retail environments can be like theatre. The tactile skin of Corian® is inviting and naturally draws the human hand. Homogenous, translucent and easy to work, it can take on almost any form, be etched to showcase a logo or back-lit to add drama.

Museums, shopping centers, airport lounges, meeting points: Corian® fits in and functions superbly in all these spaces. Its longevity and ability to be repaired means it can stand up to constant use and even occasional abuse, while its beauty, flexibility of design remains intact.

Intriguing Designs: Corian® has the ability to be shaped, carved, engraved and combined with other materials that enables new perspectives. Corian® can be flexible, malleable & workable at the same time.

What's new with
DuPont™ Corian®

Quality Network

DuPont™ Corian®

Corian® Quality Network is a premier program from DuPont. The Quality Network works closely with Architects, Designers and end customers to realize the DuPont Surfaces vision of “To transform design ideas and inspiration into innovative and beautiful reality”. The Quality Network is committed to delivering highest standards of fabrication, installation and servicing to our customers.

Quality Network members are fabricators who are Enrolled, Audited, Certified and Monitored for best quality Fabrication Installations. They are trained on carrying out Fabrication, Installations, Repair and Maintenance in interior applications. Quality Network Members are also responsible for executing the 10 year limited Installation warranty in the market.

New Aesthetics of 2017

*DuPont™
Corian®*

Embracing its heritage while moving swiftly to the future, Corian® has created three advanced aesthetics:

- **Concrete**
- **Onyx**
- **Prima**

They encompass unparalleled character and personality to satisfy a desire, strike a mood, or complete a vision.

Corian.

*DuPont™
Corian®*

PRIMA COCOA

Hues of taupe, light cocoa, and glistening metallic elements, are whipped together in a whirling surface. This enticing and natural aesthetic intrigues with its rich color.

Corian.

*DuPont™
Corian®*

PRIMA COSMOS

As bold as the universe, the rich, black background is ignited with streams and particles of grey and white, suggestive of the cosmos.

Corian.

*DuPont™
Corian®*

PRIMA DUNE

The flowing white and sand hues are suggestive of the seashore creating a color aesthetic that is natural, unique, and inspires design that is equally individual.

Corian.

*DuPont™
Corian®*

PRIMA EVENING

As with an evening sky, the surface suggests dappled light above and within the pattern. Sinuous streams flow within this rich, toned blue, dappled with metallic flecks.

Corian.

*DuPont™
Corian®*

PRIMA LIMESTONE

Angular streams of white, tan, and grey flow across a setting of toned white. Flecks of white and black are incorporated to create superb visual texture with subtle coloring.

DUPONT

Corian.

*DuPont™
Corian®*

PRIMA NIMBUS

Barely-there streaks of white create distinct, subtle movement. It is the ideal statement of energy and style, with the elegance of tone-on-tone color.

Corian.

*DuPont™
Corian®*

ONYX

NEW – inspired from the beautiful patterns of natural onyx often associated with luxury. Sinuous veining of varying opacity and translucence creates a drifting visual flow.

An aesthetic with the muse of a natural stone, celebrating the evolution of design and décor.

- extremely eye-catching when backlit
- ideal for creating a space that commands attention

Corian.

ONYX WHITE

Sensuous and comes to life not only with stunning visual energy and a refined elegance, but displays additional dimension with its translucent surface.

ONYX Gray

With dignified opulence, it has a sense of avant-garde as streams of silver-grey course through its creamy translucent background.

*DuPont™
Corian®*

ASH Concrete

Embodies grey with a purpose. Monochromatic movement, and fine particles, add depth to the design, and create a modern, dynamic aesthetic.

Corian.

*DuPont™
Corian®*

CARBON Concrete

A near-black that generates its own statement of style, and offers dusky color surging within the surface.

Corian.

*DuPont™
Corian®*

NEUTRAL Concrete

An ideal hue to create a background of quiet strength. The soft ivory color flows within the overall aesthetic, creating an exclusive design statement.

Corian.

*DuPont™
Corian®*

WEATHERED Concrete

The balanced color of warm taupe, suggests a raw, neo-industrial style, with an atmosphere of restrained power.

Deepen your palette with...

DuPont™ Corian® DeepColor™ Technology

Richer, darker colors allow designers, architects and fabricators to achieve tones they never thought were possible using Corian®. Improved wear performance and easier thermoforming, seaming and finishing.

Corian.

Deeper Cutting

"We normally work with metals and other very reflective materials. Before we made the final desk, we laid the tiles out on the floor of our studio and saw the effect of the reflection. We were blown away by the ability to make intricate profiles and have them all reflect light." Giles Miller, Giles Miller Studio

Corian.

Unlimited Potential

"R.D. Wing has been producing unique and complex fabrications in Corian® for 15 years. Corian® DeepColor™ provides a unique new perspective on the unlimited design potential of Corian® products and a means for us to expand ideas and create beautiful one of a kind elements. We look forward to using Corian® DeepColor™ as we strive to successfully complete the most challenging projects." - Rick D. Wing, R.D. Wing Co., Inc

Corian.

Clean Aesthetics, Polished High-End Look

"What's really great about the new DeepColor™ Technology is that now you can thermoform exceptionally well while retaining that clean aesthetic and depth of color throughout – you can really blend the surfaces together giving it a uniformity and polished high-end look."- David Ruthven, AIA

Corian.

Color Advancement

"You can see the texture and the luster – it's the same material all the way through – what's really nice is, as a designer, you get the feel for the depth of the material when you carve into it." - Jonathan W. Thompson, AIA, LEED AP

Corian.
