

EARTHEN HUES

Building Stronger Bonds, With Commitment To Innovation

We at **EUROBOND**, spearheads in the Metal Composite Panel Industry are committed to offering innovative products and services since 2002. Our constantly innovating mindset forces us to create architectural landmarks by empowering clients with the best-in-class range of Panels. Our state-of-the-art manufacturing facility at Umbergaon is equipped to produce 20,000 sq meters of flawless panels every day. As a part of our manufacturing process, we use Alloy 3003 which lends high strength, impact resistance, and durability to our Panels. Our panels are powered with PVDF coating, providing them with superior dirt and scratch resistance, formability, and anti-fading properties.

We place utmost emphasis on process control to achieve quality products as per ISO 9001-2015. We also put great efforts into bringing new products which revolutionise the ACP market and extend a brand-new experience to our purchasers. All the raw materials and finished products are put through 50 stringent in-house tests. Further, we engage in third-party tests & certifications to ensure that there is never a drop in the quality of our output. This ensures strength and durability which enables us to offer long warranties, enhancing the trust and confidence in our brand and making us architect's delight.

So, let **EUROBOND** personify beauty in your project.

A person stands on a rocky peak, looking out over a vast, hazy landscape. The scene is bathed in warm, golden light, suggesting a sunrise or sunset. The background features rolling hills and a dense forest of evergreen trees. The overall mood is serene and majestic.

INTRODUCING
EARTHEN HUES

22 PREMIUM SHADES | ACROSS 4 RANGES

We are incredibly delighted to introduce you to the Earthen Hues Series. Four fantastic ranges from this Series perfectly capture the everlasting beauty of abstract design. We design everything, from the passionate eloquence of Matte Clay to the glittering flair of Sand, from the hallmark appearance of Fine Texture to the magical touch of Midas.

The "Earthen Hues" collection, which is inspired by the aspects of nature around us, is a part of our commitment to being at the forefront of innovation in the ACP sector. This series will give an accessible solution to the rising trend of premium panels. The Earthen Hues ACPs are a benefit to the exterior as well as interior décor.

So, style up your buildings with the Eurobond Earthen Hues collection to bring in stunning brilliance and uncompromising beauty.

MIDAS TOUCH

A Touch of Magic.

King Midas, they say, possessed that magical touch. Anything he touched turned to gold.

There's royalty, opulence and luxury all imbued into the Midas Touch collection. With gold and grandeur as its overriding theme, you can clearly see the traces of gold in the outcome which is highly premium. A collection so unique and exclusive, you're unlikely to find it anywhere else in the country.

MATTE CLAY

An Earthy Elegance

Clay has vitality, clay has a soul. It's Earth, it's Water, and It's Fire! What we've done is breathed life into it and awakened a unique entity that adds a touch of class to your exterior structure.

The Matte Clay collection. A cultured canvas of shades complemented by a texture that's at once silky smooth like clay, yet elegantly matte. Calming, elegant, dignified.

FINE TEXTURES

A Fine Finish

Texture is more than just texture. It's about the subtle energy and latent vibe within. Lace it with aestheticism and lend it a touch of nuance, and marvel at the resultant sophistication.

The Fine Textures collection. Curated specifically for the aesthete. A select suite of stylish whites and sublime greys. With just a whisper of texture.

TERRACOTTA TRIVIA

Terracotta is used to describe a type of sculpture or decorative architecture made from a coarse porous clay and is noted for its versatility. For years, it has been an integral part of Greek, Roman and Italian Architecture. EUROBOND now brings the magic of terracotta alive in an exquisite ACP.

WHITE

The fully matte white texture adds a high architectural appeal to a space. It's zero gloss finish is designed to provide an optimal diffuse light reflection and to help minimize energy consumption. The illuminating white color provides purity and a sense of space. These shades are perfect for those looking to elevate their space with a modern, stylish look.

SAND

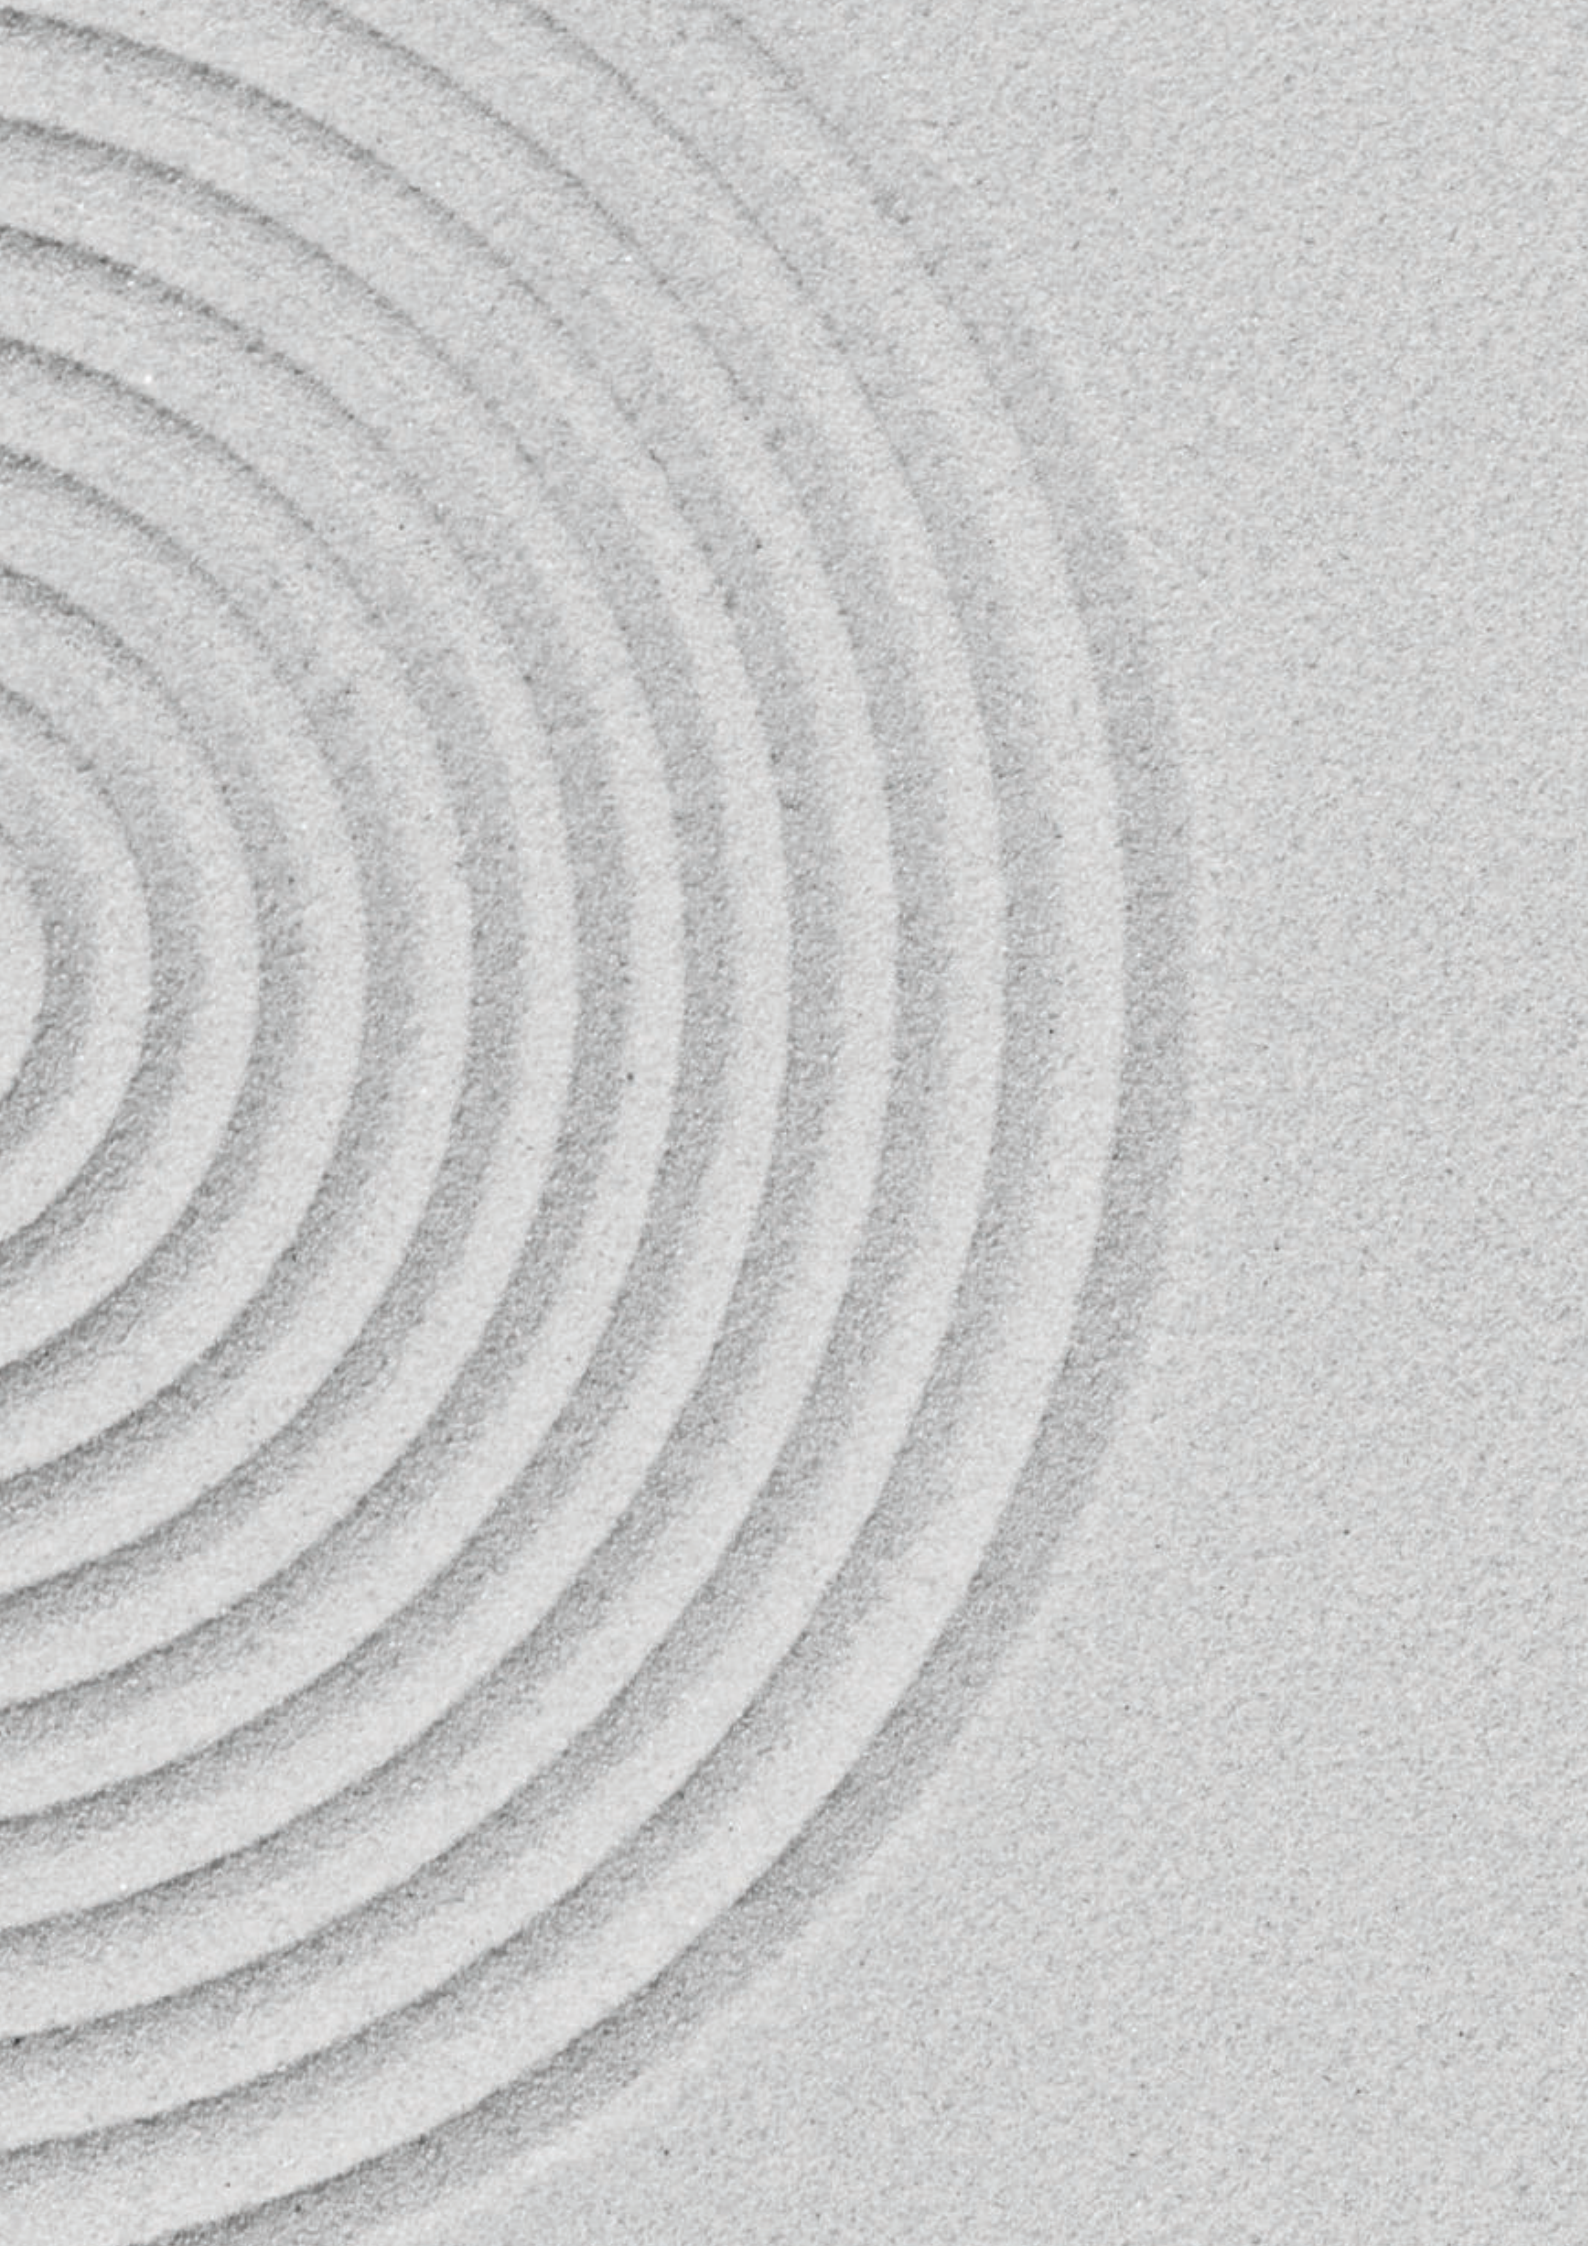

The Soulful Sheen

Within every grain of sand lies a story of Mother Earth! An enigma that holds within it timeless mysteries. Inspired by that unique grainy texture and golden sheen, we've created a charming collection that captures the hues of sand in their subtle resplendence.

The Sand collection. A delightful contrast of style and earthy elegance. Something that reaches deep into your very soul.
