FIXING & SETUP GUIDELINE

INSTALLATION GUIDELINES

- Doors can be cut on all the sides as per the Minimum sizes provided in ahead in this catalogue. Trimming should be done on both sides equally.

- If the doors are trimmed more than what is mentioned in this catalogue as minimum sizes in height and width from any side the manufacturing warranty shall be void and Durian shall not be responsible for the same.

- Subsequent to trimming all sides should be primed or sealed with wood sealant and must be applied immediately.

- Bottom of the door must be painted / polished before installation of the door is done.

- Hinges must be aligned before fitting the door, to avoid bending. It is recommended that you fix two hinges in the upper portion on the door with a gap of 6 inches from each other and by leaving a gap of 12 inches from the top, for the first hinges. The rest of the hinges should be placed equal distance in the rest of the door length.

- We will not be held liable for any of the damages due to the wind or any external forces.

- 3mm space between the frame and door must be provided on all sides of the door shutter. This is to accommodate minor movements of the door frames.

STORAGE GUIDELINES

- Store flat on a level surface in a clean, dry, well ventilated building. Protect from dirt, water and abuse. Allow air circulation. Cover the top door with a moisture barrier.

- Doors should not be subjected to abnormal or sudden variations in heat, dryness or humidity, and should not be exposed to direct sunlight. Recommended humidity and temperature are 25% - 55% RH and 50°F - 90°F (10°C - 32°C).

WARNING

- Distortion Warping, bowing and waviness, can appear as a result of incorrect topcoat (paints or stains), improper finishing techniques and or finishing conditions. These are caused by but are not limited to incorrect topcoat, watered down paints, high humidity environments, excessive application of paints, and doors not being acclimated properly

- Please read and understand the entire procedure before attempting to finish your doors. Be sure to follow the coating manufacturer's warnings and instructions on all product labels. Durian does not warrant any coating unless applied by Durian. Any damage caused by or resulting from the application of a stain or paint will void the door warranty.

- Durian gives warranty only for its product. If it is found that there is a manufacturing defect, Durian shall repair only for its product and will not be responsible for any value addition what so ever.

- The decision of Durian Technical team in determining whether a defect is a manufacturing defect or an application defect will be treated as final.
